

## Content Changes and Additions from MMPDS-02 to MMPDS-03

General Nature of Change	Relevant Alloy or Mechanical Fastener Designation
Deletion of Specification and Associated Properties	AISI 1025
Addition of Specification and/or Associated Properties	AISI 4130
Addition of Specification and/or Associated Properties	AISI 4330V
Deletion of Specification and Associated Properties	9Ni-4Co-0.30C
Deletion of Specification and Associated Properties	280 Grade Maraging
Modifications to Existing Properties	Aermet 100
Modifications to Existing Properties	Aermet 100
Addition of Specification and/or Associated Properties	HSL180
Addition of Specification and/or Associated Properties	2098
Addition of Specification and/or Associated Properties	2297
Addition of Specification and/or Associated Properties	2397
Addition of Specification and/or Associated Properties	7085
Addition of Specification and/or Associated Properties	7140
Addition of Specification and/or Associated Properties	2013
Addition of Specification and/or Associated Properties	2098
Addition of Specification and/or Associated Properties	2099
Deletion of Specification and Associated Properties	2124
Addition of Specification and/or Associated Properties	2297
Addition of Specification and/or Associated Properties	2397
Addition of Specification and/or Associated Properties	2027
Addition of Specification and/or Associated Properties	2056
Addition of Specification and/or Associated Properties	6013
Modifications to Existing Properties	7249
Addition of Specification and/or Associated Properties	7349
Addition of Specification and/or Associated Properties	7449
Addition of Specification and/or Associated Properties	7055
Addition of Specification and/or Associated Properties	7068
Deletion and Modification of Existing Properties	7075
Addition of Specification and/or Associated Properties	7085
Addition of Specification and/or Associated Properties	7140
Modifications to Existing Properties	A201
Modifications to Existing Properties	354
Modifications to Existing Properties	C355
Modifications to Existing Properties	A356
Addition of Specification and/or Associated Properties	A357
Modifications to Existing Properties	A357/C357
Modifications to Existing Properties	359
Addition of Specification and/or Associated Properties	AZ31B
Addition of Specification and/or Associated Properties	EV31A
Modifications to Existing Properties	ZE41A
Deletion of Specification and Associated Properties	CP Ti
Deletion of Specification and Associated Properties	CP Ti
Deletion of Specification and Associated Properties	Ti-5Al-2.55n
Deletion of Specification and Associated Properties	Ti-8Al-1Mo-1V
Modifications to Existing Properties	Ti-6Al-2Sn-4Zr-2Mo
Addition of Specification and/or Associated Properties	Ti-6Al-4V
Deletion of Specification and Associated Properties	Ti-6Al-4V
Addition of Specification and/or Associated Properties	Ti-6Al-6V-2Sn
Deletion of Specification and Associated Properties	Ti-6Al-6V-2Sn
Deletion and Modification of Existing Properties	Ti-13V-11Cr-3Al
Deletion of Specification and Associated Properties	N-155
Addition of Specification and/or Associated Properties	Inconel 718
Addition of Specification and/or Associated Properties	MP159
Modifications to Existing Properties	Blind 100° Flush Head Monel Rivet
Modification of Specimen Location and Data Submission Requirements	N/A
Modification of Truncation Procedures for Sequential Pearson Analyses	N/A
Major revision of text to describe use of Weibull Backoff Procedure	N/A
Modification of text to more clearly define fatigue crack growth data submission requirements	N/A
Update of Design Allowable Analysis Sample Problems	N/A
Update of Load Control Fatigue Analysis Sample Problems	N/A
